MA Board of Overseers: You should have held Jeffrey Denner's Organization in Boston, MA accountable for his actions, years, ago. This organization was fully aware of the illegal activities of state officials and the state courts, in New Hampshire. I know that I would have been protected and serviced with transparency and some civil decency if attorneys in this region did their duty. Some accountability of law enforcement would have made a huge difference, in how we protect and service our own citizens, women, and our own children.

Media malpractice=Legal malpractice servicing way too many personal and political agendas of one small state in the union. Why? Politics seems to be more relevant than "law and order?" Ask, William Barr of the U.S.D.O.J., why we have that process in place, during the presidency of George W. Bush, former Presidency of Barack Obama's administration and now we have Fox News Corporation covering up for the injustices and the corruption covered up by U.S. President Donald J. Trump's administration. Why is that process in place, U.S. Senator Lindsey Graham? You played golf with Donald J. Trump this weekend.

I requested a scheduled meeting of state attorney Maura Healey this past week. Who does she think she is to cover up for criminal activities, in the same manner, that has been causing so many fraudulent behaviors, in her own state and region, during the governing of both political parties, for decades.

Sincerely, Elizabeth A. Rawnsley

I believe the former New Hampshire Justice, "JOHN" Broderick was the "Chairperson" in charge of the review of so many members, of his commission, to review, so many disturbing actions, in the state courts. I believe I placed the name, "William." Broderick. You should ask questions, Mr. Sullivan. Why is the media covering up for illegal actions in their own communities, in this region? Who is paying you to protect their friends and affiliations? How do you sleep, at night?

Regards, Elizabeth Rawnsley

<https://www.fosters.com/news/20200616/sununu-nh-commission-to-help-with-police-community-relations> (The corruption and fraud covered up by those serving as "oversight" seem to be at the rotten roots of so many abusive behaviors of those employed in the legal industry and in law enforcement, in this region.)

Sincerely, Elizabeth A. Rawnsley

You work as a reporter in New Hampshire. You wrote a small article addressing one more commission, set up by one more governor, in New Hampshire. I have witnessed Governor Sununu serve as "Executive Council" and he never seemed too concerned about any professional misconduct, in the state courts or by law enforcement. That is a position of "oversight." We have plenty of people stonewalling the facts from citizens sitting in many positions of power, in this region for years, now, during many a time frame.

Re: (www.nhcritcourts.org) An entire time frame when many attorneys were fully aware of the professional misconduct of the law enforcement, in this state and region. He was one of many politicians choosing to cover up for injustices, of law enforcement. Do you feel as if that may be attributing to all the judicial chaos, in this state, region, and in the country for decades? I know that it is a factor and I am tired of witnessing politicians, covering up for the actions of state attorneys and judges, in this state. (Mike Gill did have a "State of Corruption" in New Hampshire Facebook page set up, during one-time frame.) He never allowed many facts to be posted, on to the attention of the public, in fear of retaliation. It seems as if the law firm of Shaheen and Gordon, in New Hampshire finally closed him down, a few years, ago. What a pathetic process, in the hands of so many lawyers after offering him a 50 million dollar settlement deal to close down his Facebook page.

Transparency and Accountability? We could begin by addressing the need to report the injustices and professional misconduct involved in this state, during many a process and for decades. Some common sense and civility are in order. Racism, in this state, is not causing any problems or hardships for African Americans. This state is simply "free" of honest media coverage, during many elections, campaigns, and presidency. (Ask the MA BOARD OF OVERSEERS, in BOSTON< MA, why I was embezzled of my own finances of twenty thousand dollars, after witnessing the "First time Taser Guns" were used and misused in New Hampshire.) The professional misconduct of the Merrimack, New Hampshire Police and so many attorneys, in New Hampshire, was surely covered up by many politicians in this region. Why?

Do you have the names of the 13 members involved in this commission, Mr. Sullivan? We have all types of documents and "facts" collected by over one hundred members, in this state reported on to the attention of former Supreme Court Justice William Broderick. Over 101 members of attorneys and his friends and affiliations never held anyone to any honesty or accountability. Some of us were requesting accountability and some protections during the entire process. I was one of those people witnessing all types of unethical conduct of law enforcement, judges, and many attorneys at law. All that we witnessed were more retaliation of law enforcement and a huge cover-up. Re: Unlawfully tapping into my phone lines by the Merrimack, New Hampshire Police was surely covered up by many media sources. Why? Ask, that question of Governor Sununu of New Hampshire. Union Leader Newspaper? Fox News Corporation? How protected is one state during many a process and circumstance?

Former New Hampshire Supreme Court Justice “Chief” Broderick was fully aware of the professional misconduct and medical negligence involved in many a process. He and his members sat back and covered up for all types of professional misconduct and violations of state and federal laws. A 911 call, in this state, becomes a criminal action, if you have police involved in a medical emergency? Why? What about all the corruption involved in the legal industry, in this state and region? The media malpractice covering up for the injustices may be one of the reasons why we are witnessing so many people and police become so very misguided and confused. The bad behaviors are never exposed if you don't have anyone investigating into the conduct. No accountability but you do have plenty of bullies covering up for one another, in this state and region. A Nation of Laws? Or A Nation of Cowards? I believe former U.S. President Obama has placed this question on to the public. He should have used his federal agencies to investigate into the conduct reported on to his attention.

The ACLU is now involved in this commission? They were never too interested in investigating into any violations of laws involving law enforcement, at a local, state, and national level of oversight. They have always claimed no “interests” in any criminal cases affecting women, in this state. Mental health care and a 911 call becomes a criminal case, in the hands of police, and they are able to behave in manners that are illegal and unethical. Over 101 members covered up for such an injustice, years ago. I paid an attorney twenty thousand dollars in Boston, MA. What did he do? Pocket the money and covered up for illegal actions of state law enforcement. That is why we have no accountability. The U.S.D.O.J. refuses to investigate complaints or hold law enforcement or their peers to any accountability, in this state. Why? Sincerely, Elizabeth A. Rawnsley
