Greetings,

My concern has to do with the removal of badly performing law enforcement personnel, regardless of the often one-sided union agreements that have been instituted over the years. A philosophy I have come to hear more and more often with regard to these and other current law enforcement behaviors is that there are no good cops as long as bad cops are allowed to serve. In addition to institutionalized racism, I sincerely hope the commission addresses this very real problem in our law enforcement institutions, here in New Hampshire, as it is being addressed across the country.

Thanks,

Gerry
