Dear Commission,

I am very interested in this commission related to the experience my family had with the then local NH police department. My son was sentenced to life with no evidence. There was no DNA, no fingerprints, no examination of cell phones or computers, and witnesses were not even interviewed. During the trial the police chief stated he 'did not think he had to' do a thorough investigation. The 'detective' was new, only in that position for a couple of months, and shortly after was transferred to another town.

I would like to see, added to your submission, that there can be no arrest, trial or conviction without a thorough investigation; and that police need to be held accountable for lazy and incompetent work.

Thank-you for your time. I am eager to see how this bill will look when it is passed.

Sincerely,

Robin Martin
