The Brookline NH Racial Justice group is in full support of the specific recommendations submitted by the public. Upon reading the commissioners recommendation we noticed that a review of the current state of relationships between police and the communities they serve and potential steps to enhance those relationships was not included as well as addressing mental health training and implementing a social worker response team to decrease the number of mental health calls the police respond to.

We were very happy to see the commissioners recommendations on all other topics.

Thank you for hearing our voice,

The Brookline NH Racial Justice group
